A04.0 WORKING SESSION

DEADLINE REVISED
TO NEXT THURSDAY

GITHUB HOMEWORK (HW2.1)

- Use the following GitHub repo as a template:
 - <https://github.com/maxxcrawford/multi-device-layout-patterns>
 - Pick **ANOTHER** of the three layouts:
 - Mostly Fluid, Column Drop, Layout Shifter
 - Add CSS to the media queries in the stylesheet to change the layout on tablet/desktop, per the responsive guides
 - Tips: Investigate [flex-wrap](#) and [order](#) properties.
- Due Tuesday, Oct 5, 5:00 PM

RESPONSIVE NESTING

- If two elements need to be *next to each other*, they need to share a parent container.

NOTE: WE'RE GONNA TACKLE
