

INTERACTIVE DEVELOPMENT

Assignment: **A08.1 “WordPress Theme’in”**

Date Assigned: Monday, 11/15/21

Course: GRDS 3243 Interactive Development

Instructors: Maxx Crawford / Bryan Alexis

ASSIGNMENT:

Install and activate a theme in your WordPress instance that you created in the previous assignment. Add a new **page** to your site that documents which theme you selected, what you like about it, two design decisions you made customizing it through the WP Admin panel (color, font choice, etc) and what the custom CSS you added does.

OBJECTIVE:

As we continue to work more with WordPress, this assignment will let you practice customizing the look and feel of your site through both the WP Admin panel and custom CSS.

DELIVERABLES:

A link to a WordPress blog post, hosted via WP Engine.

TECHNICAL REQUIREMENTS:

- Add some custom CSS in addition to the new theme.
- Create a new **page** called “Theme”. This is the link you’ll send to me. Note – Posts will not be accepted. This needs to be a **page**. Add this new page to the top/global navigation.
 - *Note – This may require you to also [create a menu](#).*
- The theme you select will need to be approved by me before installing. You may install it by any method we covered in class.

SUBMISSION INSTRUCTIONS:

Please send a URL (*example.wpengine.com/theme*) to your post to Maxx Crawford via Slack DM.

TIMELINE/DUE DATE:

Template Approval: Wednesday, Nov 17 – 5:00 PM

Final: Friday, Nov 19 – 11:59 PM
