INTERACTIVE DEVELOPMENT

Assignment: **A07.0 "Website Distillery: Type Specimen"**   Date Assigned: Friday, 10/22/21
Course: GRDS 3243 Interactive Development   Instructors: Maxx Crawford / Bryan Alexis

ASSIGNMENT:

This project will use the same website you used for the website distillery wireframe project.

Take your site and do an audit of the website and determine all the fonts they use across the site. Note each of these use-cases. Download the fonts they're using to reuse them in a new project. Create a web page with font specimen examples of each weight/use case.

OBJECTIVE:

The primary focus of this phase of the project will be two-fold: mastering the inspect tool to see how CSS is being rendered on the web and to create a well-designed page showing the fonts in use.

DELIVERABLES:

A link to a GitHub Pages (GitHub.io) URL, serving your HTML file and CSS file.

TECHNICAL REQUIREMENTS:

- Start this project off with a new, clean repo. If you need a starter template, use this: https://github.com/maxxcrawford/sample-html-project
- No in-line CSS allowed
- If your font is hosted on Google Fonts, feel free to include it using a link tag, rather than uploading the font-files directly.

NOTES:

- Remember to use the web inspector tool (Chrome, Firefox) to see fonts in context.

GRDS 3243 Interactive Development Assignment:
A07.0 "Website Distillery: Type Specimen"

SUBMISSION INSTRUCTIONS:

Please send a GitHub Pages URL (*github.io*) to your project to Maxx Crawford via Slack DM.

TIMELINE/DUE DATE:

Check-in: Wednesday, Oct 27, 5:00 PM
Final: Friday, Oct 29 – 9:00 AM CDT
